If your organisation is already accredited, you cannot apply again in the same field.

Successful applicants for Erasmus accreditation will gain simplified access to **Key Action 1** funding opportunities in their field for the duration of the accreditation's validity, under the conditions defined in the yearly calls for proposals published by the European Commission.

Applicant Organisation

To complete this section, you will need your organisation's identification number (OID). Since 2019, the Organisation ID has replaced the Participant Identification Code (PIC) as unique identifier for actions managed by the Erasmus+ National Agencies.

If your organisation has previously participated in Erasmus+ with a PIC number, an OID has been assigned to it automatically. In that case, you must not register your organisation again. Follow this link to find the OID that has been assigned to your PIC: [Organisation Registration System](#)

You can also visit the same page to register a new organisation that never had a PIC or an OID, or to update existing information about your organisation.

This is a very important section. Giving informative and precise answers will let the persons assessing your application understand your context and your plans. Writing a good background will also help you when answering questions in the second part of the application.

Please keep in mind that the Programme is open to many kinds of organisations all over Europe. This application is designed to address all of them. Because of that, some questions may seem obvious or unnecessary to you. Even if it seems so, it is still very important to give clear and precise answers. Make sure to read the questions carefully and to address all sub-questions. If some sub-questions are not relevant for your organisation, state so explicitly.

If you are applying on behalf of a larger organisation with multiple departments or sections, it is important that you clearly describe the structure of the entire organisation and explain which parts of the organisation are working in the field covered by this application. The application is stated in the section 'Context' and can be adult education, vocational education and training, or school education.

Piano Erasmus: Obiettivi

Erasmus Plan: Objectives

Your Erasmus accreditation application should be a result of joint work in your organisation. Your answers should be a result of a discussion with relevant colleagues and managers. If you find the application too difficult, you can consider reducing the number of objectives and participants that you are proposing. Erasmus accreditation is designed to allow organisations to learn and develop over time. Taking a gradual approach to your participation in the Programme will not reduce your chances of being successful.

How long is the Erasmus accreditation valid?

If your application is approved, your organisation's Erasmus accreditation will stay valid at least until the end of the current programming period in 2027, under the condition that your organisation keeps fulfilling the obligations defined in the Call for Erasmus accreditations.

The Erasmus Plan that you submit in this application can cover a shorter period of two to five years. In the following sections, you can choose the length of your Erasmus Plan yourself by defining your objectives and estimating the number of mobility activities you want to organise in the next years. Based on your application, the National Agency will define the timing of periodical accreditation progress reports and future updates to your Erasmus Plan to make sure it stays up to date. If important changes happen in your organisation, you will also be able to request an Erasmus Plan update yourself.

Please define the objectives your organisation wants to achieve by implementing Key Action 1 mobility activities.

Your objectives should be concrete, realistic, and should represent a real benefit for your organisation. Make sure to link them to the needs of your organisation and its learners. If you have attached any strategic documents as explained in the 'Background' section, you should make sure that relevant objectives from those documents are translated to your Erasmus Plan in this section. If needed, you can repeat information from your earlier answers, or simply refer to them as part of your explanations for defined objectives.

L'ERASMUS PLAN è modificabile nell'arco della durata del Programma, quindi anche gli obiettivi possono essere aggiornati seguendo nuove esigenze e bisogni dell'Ente o del Consorzio

L'ERASMUS PLAN deve essere originale nel senso di "unico" in quanto corrispondente alle caratteristiche, ai bisogni e agli obiettivi del singolo istituto

Organisations implementing mobility activities must adhere to a common set of Erasmus quality standards. The standards exist to ensure good mobility experience and learning outcomes for all participants, and to make sure that all organisations receiving the Programme's funding are contributing to its objectives. In a mobility consortium, Erasmus quality standards apply to activities implemented by all beneficiary organisations: the coordinator and the consortium members.

The Erasmus quality standards are part of the call for Erasmus accreditations. They are also presented below so you can read and easily access them again while writing your application. Where needed, appropriate application of Erasmus quality standards in the national context will be further interpreted by the relevant National Agency.

Please carefully read the Erasmus quality standards presented below and confirm your agreement.

I. Basic principles

- **Inclusion and diversity:** the beneficiary organisations must respect the principles of inclusion and diversity in all aspects of their activities. The beneficiary organisations must ensure fair and equal conditions for all participants.
Whenever possible, the beneficiary organisations should actively engage and involve participants with fewer opportunities in their activities. The beneficiary organisations should make maximum use of the tools and funding provided by the Programme for this purpose.
- **Environmental sustainability and responsibility:** the beneficiary organisations must promote environmentally sustainable and responsible behaviour among their participants. The beneficiary organisations should make maximum use of the funding provided by the Programme to support sustainable means of travel.
- **Digital education – including virtual cooperation, virtual mobility and blended mobility:** the beneficiary organisations should use digital tools and learning methods to complement their physical mobility activities, and to improve the cooperation with partner organisations. The beneficiary organisations should make maximum use of the digital tools, online platforms, and other opportunities provided by the Programme for this purpose.
- **Active participation in the network of Erasmus organisations:** one of the objectives of the Programme is to support the development of the European Education Area. Beneficiary organisations should seek to become active members of the Erasmus network, for example by hosting participants from other countries, or by taking part in exchanges of good practices and other contact activities organised by the National Agencies or other organisations. Experienced organisations should share their knowledge with other organisations that less experience in the Programme by providing them with advice, mentorship or other support. Where relevant, beneficiary organisations should encourage their participants to take part in alumni activities and networks.

Please read the following statements carefully and confirm your agreement:

- I have read and understood the above Erasmus quality standards
- I understand and agree that Erasmus quality standards will be used as part of the criteria for evaluation of the activities implemented under this accreditation
- I understand and agree that the results of the evaluation based on these standards will form a part of criteria for decision on any subsequent grants under this accreditation
